

**President's
Corner**

Greetings for November

I suspect that most of us have put the Corvettes to bed for the winter. I know the snow last week convinced me that it was that time of year. Now I just need to find the car cover and the battery tender that got packed away for the move last summer. Getting some gas stabilizer in the fuel system is a good idea no matter how you store your car.

Last month I mentioned we would soon know about the success of our October 12th car show. I am happy to report that it was a great success despite the cold and windy day.

We had 211 cars with 70 preregistered. The efforts of all the club members were noted at our November meeting and a special thank you goes to Ken and Cindy for all their efforts. I know this is almost the same thing I said last month, but it deserved being repeated.

We had a good turn out and it was a great time on the fall run, but it did rain for half the day. Thanks to Brick, Kris, George and Susan for getting this organized. The stop in Eagle Point Park is one of my favorites, and the rain did let up long enough to get out of the cars for a break.

We had one for the biggest turn out on record for the Perryville road cleanup. We made short work of the task and got started on lunch by 11:00 am. Thank you to all who helped.

Our only planned activity for November will have happened before you read this as Johnsons are having the tail gate party on November 10th.

We are still looking for club members to step up and help with some important roles as club officers. We need a parade director, and an advertising director. There are also a couple of positions that will most likely need to be filled within the coming year. So, if you have an interest in taking on a new and/or different role for the club, please let me know.

As I stated last month, we are putting together the activities calendar and the budget for 2020, so if you have any ideas, please let me know. The idea of changing the monthly meeting to the last Sunday of the month was discussed and will be reviewed at the Board meeting next month. We will try to decide for the 2020 calendar. Donna reported on the preliminary plan for the charity donations for this year and the Board will make a final decision in December so the checks can be written for December distribution.

My feelings during the November club meeting were mostly focused on the great results we get when the club gets together to support an activity. This was demonstrated by the success of the October 12th car show and the Perryville road clean up. Jack also reported on the recognition of our club members working at the mid-west regional low speed events. We are not a big club, but we are a very successful club because of the work of the individual members.

If you have any questions or concerns about the club, please let me know.

Leon Gorsch
NICC President
